

## High School Tech Challenge Project

Project name: **Traditional Chocolate Cake and Traditional Chocolate Torte**

This Cake is a very traditional Chocolate Cake, which can be made in two different forms.

- Two layer traditional birthday style cake
- Four layer torte with a different style of decoration

Objective:

Introduce students to the method of scratch baking using two techniques with the same basic materials.

Outcomes:

A product that can be produced and presented for service in two different capacities, made with basic ingredients found in most restaurants and bakeries.
